

We respect the value of a healthy community where all members are able to participate.

We believe in the individual's ability to achieve their personal goals for wellness.

We understand the life-long challenges and concerns of parents and families of children with behavioral health disorders.

BEHAVIORAL HEALTH SERVICES

Community Partnerships of Idaho, Inc

Creating opportunities for people to learn and achieve their goals since 1995

# BEHAVIORAL HEALTH SERVICES FOR CHILDREN, TEENS AND ADULTS

## COUNSELING SERVICES

We treat adults and children with the utmost compassion and respect. In collaboration with the client and the client's family, our state licensed clinicians diagnose and utilize evidence-based treatment techniques to address various disorders. We also help treat many other areas of need, including:

- Anxiety
- Art/Play Therapy
- Crisis Intervention
- Depression
- Family/Couples Therapy
- Gender/Sexuality
- Group Therapy
- Relationship Building
- Self-Esteem
- Social Supports
- Self-Harm/Suicidal Thoughts
- Trauma

## MEDICATION MANAGEMENT

Achieving overall well being and symptom stability sometimes requires a participant to be prescribed medication. Participants receive consultation with our Board Certified Psychiatrist and Physician's Assistant to discuss how the medications are working, and to make any necessary changes or adjustments.

## CASE MANAGEMENT

Participants sometimes struggle with finding and coordinating resources, understanding the supports and options available to them and navigating the process of obtaining those supports. Our Case Managers can help organize and maintain services available for our participants.

We believe that participants should determine their own goals and services. We help equip individuals with the tools they need to be successful.

## COMMUNITY BASED REHABILITATION SERVICES (CBRS)

formerly Psychosocial Rehabilitation Services (PSR)

Our program is designed to help children, teens and adults learn specific skills to cope and manage symptoms that may negatively impact their life. This service can be provided in the community, in schools and in the participant's home.

Participants will work with a specialist to identify their own goals and outcomes. Our specialists work with participants on a variety of skills including problem-solving, coping, independent living, communication, financial and budget planning.

## BEHAVIORAL HEALTH SERVICES

We know how important it is to find the right behavioral health provider.

We believe in providing quality behavioral health supports to individuals and their families in a holistic manner. We work collaboratively with our various practitioners to ensure the highest level of care to the individuals and families we serve.

Community Partnerships offers services for children, teens and adults, including:

- Habilitative Supports and Intervention
- Family Education and Training
- Respite Care
- Teen Services
- Developmental Therapy
- Adult Day Services
- Certified Family Home Program
- Employment Services
- Recreation Services
- Friday Night Group
- Self-Directed Services
- Supported Living
- and More!

We believe that all individuals should have the ability to access supports necessary to help them function more independently in their community
